Before you consider selling your textbooks, ask...

Will I need this textbook again?

Please use this reference tool to further guide you in the nursing programs at Hondros College. The textbooks that you receive in our program are carefully selected to enable student success in the classroom, prepare for the NCLEX, and provide a reference throughout your entire career! You should think of these textbooks as your own personal resource library. This reference tool will help to show you that the textbooks you receive are used throughout the entire program, and Hondros College discourages any student from selling their textbooks prior to graduation from the program.
